% DV = % Daily Value

\* = Daily value not established

**CHROMIUM POLYNICOTINATE** - Chromium Polynicotinate is safe and effective. It works by making your body's insulin function correctly. Insulin builds muscles by stimulating amino acid uptake, while accelerating fat breakdown. This improves metabolism so that your body relies more on using stored fats. The results are more energy, and the reshaping of your body to a leaner, trimmer and firmer you. According to U.S.D.A. studies, 9 out of 10 Americans get less than 50 micrograms of Chromium daily as compared to the 50 to 200 micrograms recommended by the National Academy of Sciences.

**MACA** - Most commonly used to increase energy, stamina and endurance in athletes, promote mental clarity, treat male impotence, and help to correct female hormonal imbalances including menopause and chronic fatigue syndrome. European doctors have prescribed Maca for a variety of health-related illnesses and weight management for more than a decade and have found it more helpful than synthetic western medicines. Maca is growing in world popularity due to its energizing effects, fertility enhancement and aphrodisiac qualities.

**EPHEDRA EXTRACT (MAHUANG)** - A good source of energy, improves blood circulation, and stimulates BAT activity (the burning of stored white body fat).

**GUARANA EXTRACT** - A high energy source.

**GOTU KOLA** - Reduces high blood pressure, mental fatigue and senility. Helpful for skin disorders.

**SIBERIAN GENSING** - Stimulates mental and physical vigor.

**FO-TI** - Lowers cholesterol and strengthens the body.

**GINKGO BILOBA HERB** - An antioxidant that increases circulation, and reduces premature memory loss and senility.

**WHITE WILLOW BARK** - Helps insomnia, reduces pain, and is an anti-inflammatory.

**CAYENNE PEPPER** - Stimulates circulation, useful in sinus and respiratory ailments, helps digestive system.

**HAWTHORN BERRY EXTRACT** - Is historically considered as a powerful tonic for the heart and aorta and modern testing has linked much of its effect to protecting the heart from free radicals.

**GREEN TEA EXTRACT** - Antioxidant and detoxifier.

**ECHINACEA** - A blood purifier. Helps build up the supply of large white blood cells. Improves resistance to viral, fungal, and bacterial infections. Good for prevention of colds, flu, and blood poisoning.

**BLADDERWRACK** - Contains natural iodine to promote a healthy thyroid. It also stimulates blood circulation and eases obesity.

**REISHI MUSHROOM** - Helps stimulate liver activity, cleanses the blood, helps lower stress, and helps beautify the skin. It also strengthens the immune system.
