

Aloe Pure Aloe Berry

For♦Mor is proud to introduce **Aloe Pure** and **Aloe Berry** to its product line. There is much documentation concerning the benefits of aloe. Internally, aloe aids inflammation, soothes the digestive system, and is shown to improve the assimilation and bioavailability of other nutrients and supplements. Applied externally, aloe is soothing and moisturizing to the skin, and aids healing. Aloe gel is a mild anesthetic, relieving itching, swelling, and pain: it also is antibacterial and antifungal, increases blood flow to wounded areas, and stimulates fibroblasts, the skin cells responsible for wound healing.

Certified By The International Aloe Science Council.

It is important to realize that there are different sources of aloe, as well as different manufacturing methods. For♦Mor is committed to bring only the best aloe to the marketplace. For♦Mor uses only Certified Organic Aloe, extracted using a cold-press method that is certified by the International Aloe Science Council. For♦Mor is an accepted member of the prestigious IASC, a non-profit organization dedicated to serving the needs of the aloe industry. Rest assured, For♦Mor aloe is the best available!

Two Aloe Products To Satisfy Everyone.

For♦Mor determined that two aloe products were necessary to meet the needs of consumers.

Aloe Pure is exactly what it suggests...just like you'd squeeze it from the plant with a 1:1 ratio. **Aloe Pure** can be used either internally or externally. This is the product that many experienced aloe users will be looking for!

Aloe Berry is a delicious blend of Aloe, along with Pau D'Arco Tea, Ginseng Tea, Ginkgo Tea, and Suma, with natural flavors of Cherry, Strawberry, Raspberry, and Blueberry. People love the taste, including children. **Aloe Berry** does not contain fruit juice, no caffeine, and no artificial sweeteners or color!
